| Product standard        | STO REAX LLC 93355948-001-2025                                                                                    |

2. HAZARDS IDENTIFICATION

|                          |                                                                                                                          |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Classification           | Not classified as a hazardous mixture based on available data                                                            |
| Signal word              | Not required                                                                                                             |
| Pictograms               | Not required                                                                                                             |
| Hazard statements        | No mandatory hazard statements assigned.                                                                                 |
| Precautionary statements | Avoid generating dust or aerosol. Observe good industrial hygiene; use eye protection and gloves for prolonged handling. |
| Other hazards            | No other hazards requiring specific identification have been identified.                                                 |

3. COMPOSITION / INFORMATION ON INGREDIENTS

|                             |                                                                                                                     |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------|
| Chemical characterization   | Food-processing preparation. Only ingredients relevant to hazard classification and safe handling are listed below. |
| Hazard-relevant ingredients | No ingredients requiring disclosure for mixture hazard classification have been identified.                         |
| CAS / EC                    | Not applicable to the mixture                                                                                       |
| Exposure limit              | No product-specific exposure limit has been established.                                                            |

4. FIRST-AID MEASURES

|              |                                                                                                             |
|--------------|-------------------------------------------------------------------------------------------------------------|
| Inhalation   | Move to fresh air. Obtain medical advice if irritation persists.                                            |
| Skin contact | Remove contaminated clothing and wash skin with soap and water. Obtain medical advice if irritation occurs. |

SAFETY DATA SHEET  
HERTZ CLARYFIX CL-01 KIESELSOL  
Liquid beverage-processing preparation

Date: 01.09.2026

Edition 1  
page 2 of 5

|             |                                                                                                                                               |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Eye contact | Rinse cautiously with clean water for at least 15 minutes. Remove contact lenses if easy to do. Obtain medical advice if irritation persists. |
| Ingestion   | Rinse mouth and give a small amount of water. Do not induce vomiting. Obtain medical advice if unwell.                                        |

#### 5. FIRE-FIGHTING MEASURES

|                                       |                                                                                           |
|---------------------------------------|-------------------------------------------------------------------------------------------|
| Suitable extinguishing media          | Water fog, foam, dry powder or CO <sub>2</sub> , as appropriate for the surrounding fire. |
| Unsuitable extinguishing media        | Do not use a solid water jet that may disperse dust or spread the product.                |
| Specific hazards                      | The product does not support combustion under normal conditions.                          |
| Protective equipment for firefighters | Wear self-contained breathing apparatus and full protective clothing in a fire.           |

#### 6. ACCIDENTAL RELEASE MEASURES

Isolate the area and provide ventilation. Absorb with inert material or pump into a labelled container. Prevent concentrate from entering surface waters.

#### 7. HANDLING AND STORAGE

|                    |                                                                                                                                                            |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Safe handling      | Use with adequate ventilation. Do not eat, drink or smoke in the work area. Avoid eye contact and prolonged skin contact.                                  |
| Storage conditions | Store in tightly closed compatible original packaging in a cool, well-ventilated place, protected from sunlight and freezing. Prevent unauthorized access. |

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

|                             |                                                                                                                         |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Engineering controls        | General ventilation; local exhaust where dust, concentrate transfer or aerosol formation may occur.                     |
| Respiratory protection      | Normally not required in the absence of dust or aerosol; use at least a P2 particulate respirator where dust may occur. |
| Hand protection             | Protective gloves; nitrile gloves for prolonged contact.                                                                |
| Eye/face protection         | Safety glasses.                                                                                                         |
| Skin protection and hygiene | Work clothing; wash hands after handling.                                                                               |

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

|                |        |
|----------------|--------|
| Physical state | Liquid |
|----------------|--------|

#### 10. STABILITY AND REACTIVITY

---

|                                    |                                                                                                       |
|------------------------------------|-------------------------------------------------------------------------------------------------------|
| Chemical stability                 | Stable in closed packaging under the stated storage and handling conditions.                          |
| Possibility of hazardous reactions | Hazardous polymerization is not expected. Reactions may occur on contact with incompatible materials. |
| Conditions to avoid                | Moisture, excessive heat and direct sunlight; for powders, dust formation and ignition sources.       |
| Incompatible materials             | Strong oxidizing agents.                                                                              |
| Hazardous decomposition products   | Fire may generate carbon and nitrogen oxides; decomposition products depend on the ingredients.       |

---

#### 11. TOXICOLOGICAL INFORMATION

---

Test data for the finished mixture are limited; the assessment is based on known ingredient properties.

#### 12. ECOLOGICAL INFORMATION

---

No significant environmental hazard is expected under normal handling. Prevent uncontrolled release of concentrate or large quantities of powder.

#### 13. DISPOSAL CONSIDERATIONS

---

Dispose of product and packaging in accordance with local requirements, taking actual contamination into account. Do not wash large quantities into drains or surface waters.

#### 14. TRANSPORT INFORMATION

---

|                       |                                    |
|-----------------------|------------------------------------|
| UN number             | Not assigned                       |
| Road / rail transport | Not classified as dangerous goods. |
| Sea transport         | Not classified as dangerous goods. |
| Air transport         | Not classified as dangerous goods. |

---

#### 15. REGULATORY INFORMATION

---

|                          |                                                                                                                                                                                                                                                             |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| GHS label elements       | Pictograms: Not required; signal word: Not required.                                                                                                                                                                                                        |
| H- / EUH-statements      | No mandatory hazard statements assigned.                                                                                                                                                                                                                    |
| Precautionary statements | Avoid generating dust or aerosol.<br>Observe good industrial hygiene; use eye protection and gloves for prolonged handling.                                                                                                                                 |
| Regulatory references    | GOST 30333-2007 (in force on the issue date); GOST 30333-2022 (adopted, effective in the Russian Federation from 1 September 2027); GOST 32419-2022; GOST 32423-2013; GOST 32425-2013; GOST 31340-2022; TR CU 021/2011 and TR CU 029/2012 where applicable. |

16. OTHER INFORMATION

The information contained in this Safety Data Sheet is believed to be true and reliable as of the issue date. However, its accuracy, completeness and any recommendation or suggestion are provided without additional obligation or warranty. Since conditions of use are beyond the manufacturer's control, the user is responsible for determining conditions for safe handling of the product. This Safety Data Sheet is not an analytical product specification; quality parameters and specifications are provided in the product technical data sheet and certificate of analysis.

The form and section sequence of this Safety Data Sheet follow ISO 11014:2009, confirmed by ISO in 2025, and GOST 30333-2007, which is in force in the Russian Federation on the issue date. The adopted subsequent edition GOST 30333-2022, effective in the Russian Federation from 1 September 2027, has also been considered. For international structure, Annex II to Regulation (EC) No 1907/2006 (REACH), as amended by Regulation (EU) 2020/878, has been taken into account.
